versatility plus.....

L. A. Darling's Adjustasell merchandising system is an innovation in modern methods of merchandise presentation. Adapting new slim-line features to standard slotted uprights... Darling's unique design and engineering techniques combine to make it simple in construction, unusually strong and functionally flexible. Nothing on the market can match its standard production components for easy, labor-saving assembly and almost instant fixture change-ability.

Equally adaptable to walls, counters, low boys or island units, Adjustasell is the ultimate in store-wide fixturing for practically every type of merchandise. It is ideal for individual units, complete departments or entire stores.

There's much more to a completed Adjustasell installation than a smart modern appearance. Every installation capitalizes on the proper use of space... gets more merchandise up and out front for effective eye-level viewing. Adjustasell makes it easier for the customer to See, Select and Buy!

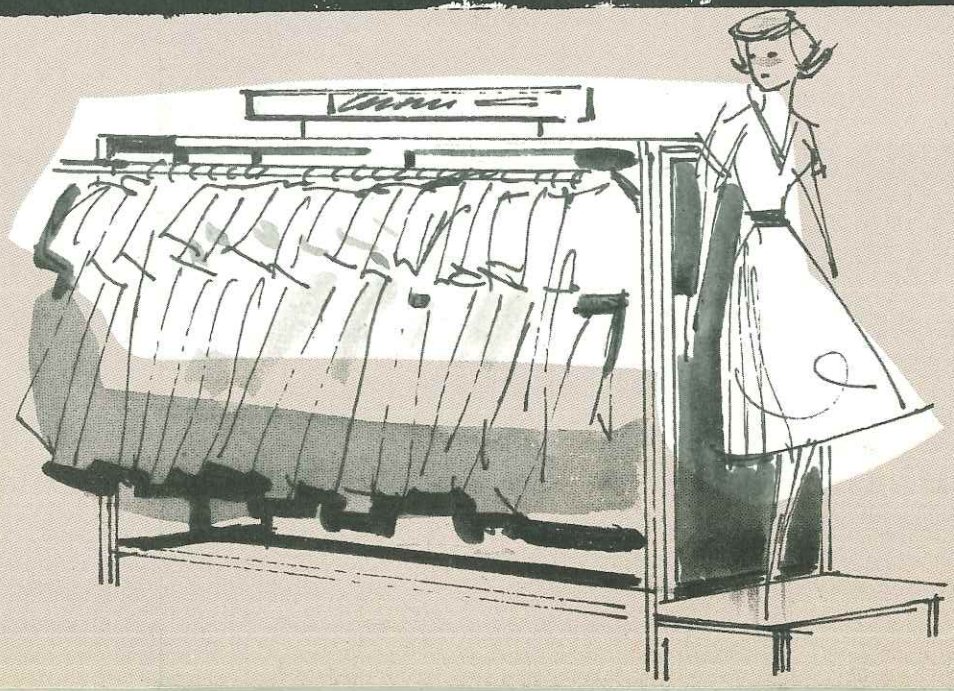
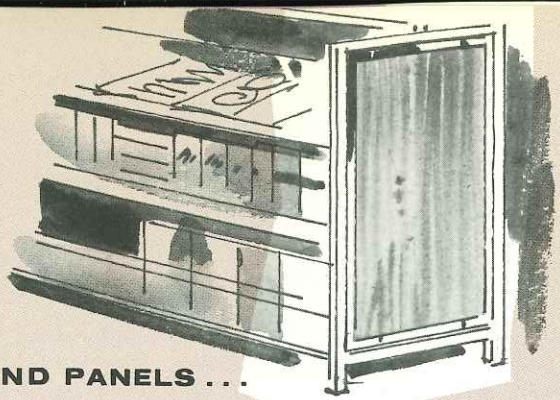
CUSTOMIZED COMBINATION UNITS



DISTINCTIVE GARMENT RACKS

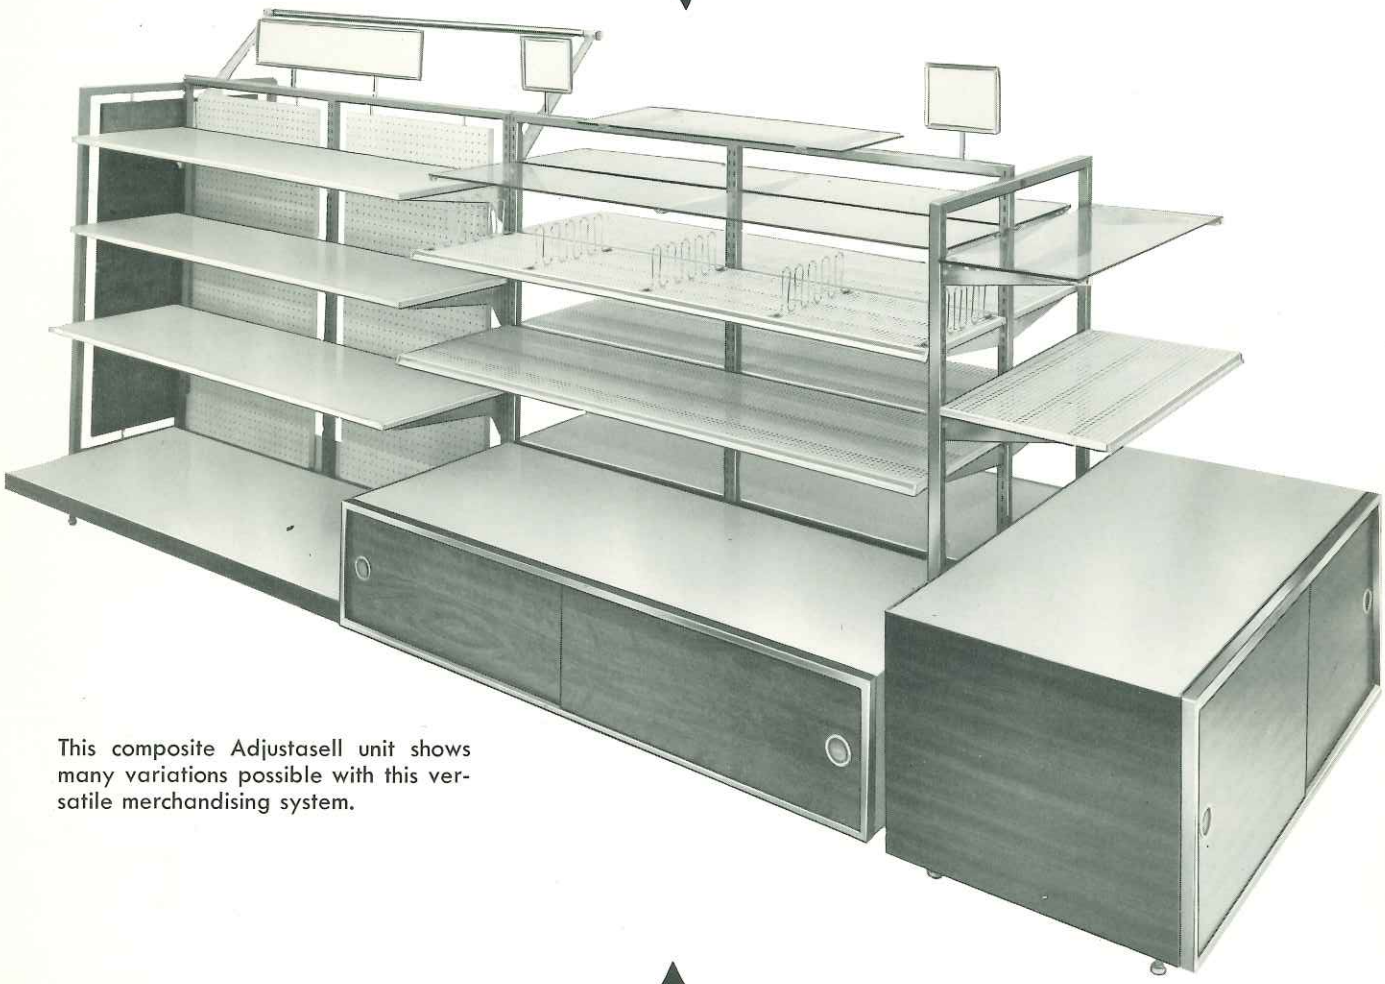
CARDHOLDERS . . .

Holes drilled at four points in top of center gondola frame accept choice of cardholders, display tops and over-counter displayers.

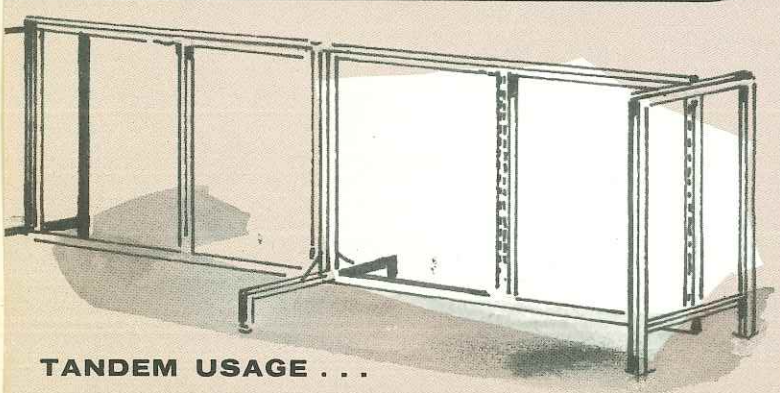


END PANELS . . .

Custom end panels are easily and inexpensively attached to square end frame with mounting pins.

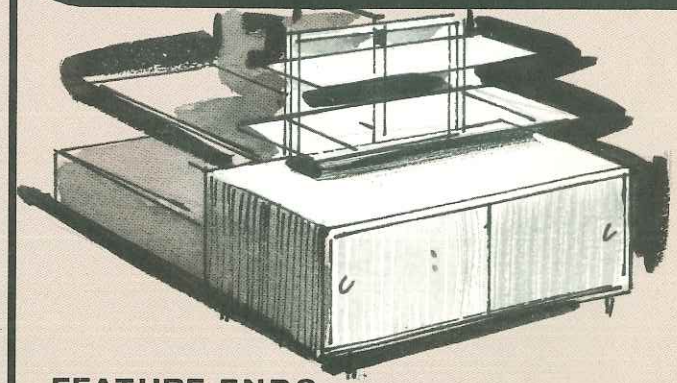


This composite Adjustasell unit shows many variations possible with this versatile merchandising system.



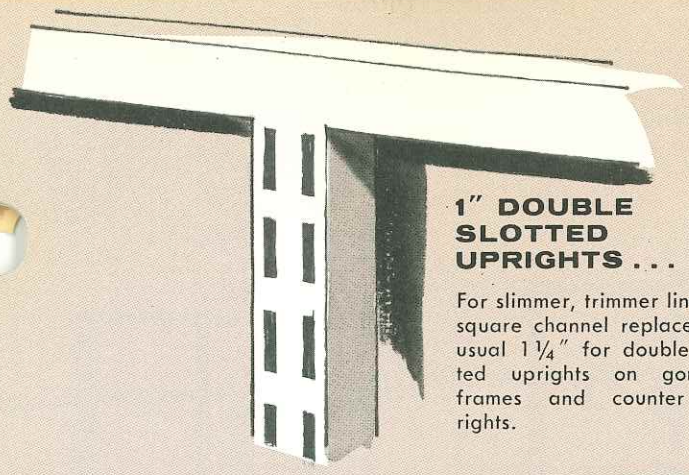
TANDEM USAGE . . .

Intermediate supports permit continuous runs of Adjustasell merchandisers and gondolas. Single support between units saves money and gives a more graceful look.



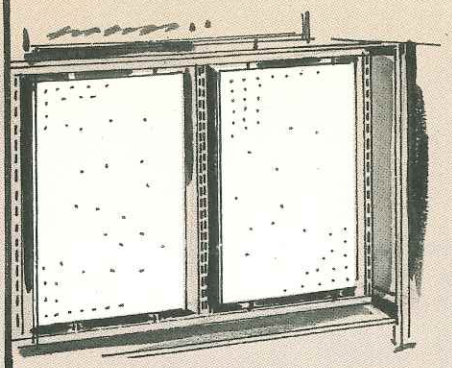
FEATURE ENDS . . .

Slotted end frames accommodate brackets and shelving for a choice of end feature treatments to suit your merchandising needs.



1" DOUBLE SLOTTED UPRIGHTS . . .

For slimmer, trimmer lines 1" square channel replaces the usual 1¼" for double slotted uprights on gondola frames and counter uprights.



GONDOLA BACK PANELS...

Standard perf board or decorative panels fasten easily in fittings of Adjustasell gondolas.

Adjustasell

FLEXIBILITY PLUS

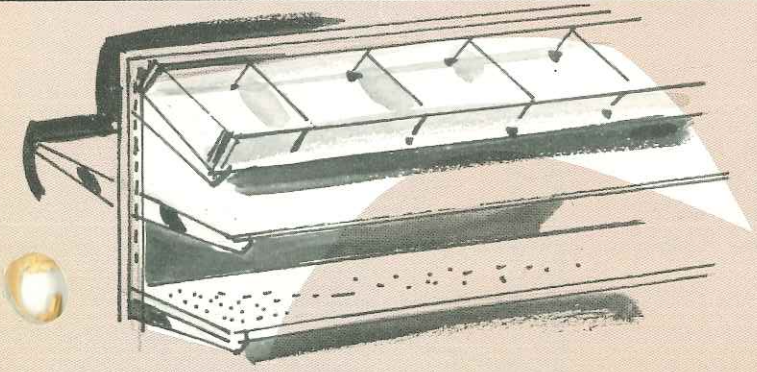
Adjustasell is a complete system. It offers all the elements necessary for creative store planning from a limited number of basic parts. Regardless of the type of merchandise—from heaviest hardware to high fashion apparel, there's no limit to the attractive, profit-building installations possible with its components.

And Adjustasell components are completely interchangeable. Most parts can be used on walls, counters or island units and where the need arises, can be immediately changed over to meet the demands of new and different sized merchandise and of seasonal selling.

Adjustasell has design flexibility, too. Built-in considerations, beyond the basic fixturing function, permit unlimited decorative and architectural applications to upgrade and customize the fixturing to suit your individual needs.

3 BEAUTIFUL FINISHES

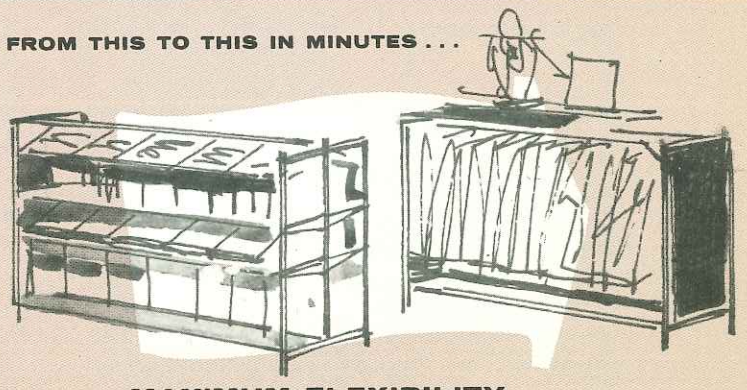
Darlite — an economical, quality plated finish with a durable chrome-like appearance.
Brushed Chrome—Darling's finest quality Chrome finish brushed to a soft silver-like luster.
Eggshell White Enamel — a smooth, tough baked enamel finish that blends harmoniously with any decor.



VERSATILE SHELVING . . .

Straight or slant brackets take glass, wood, hardboard or perf metal shelving.

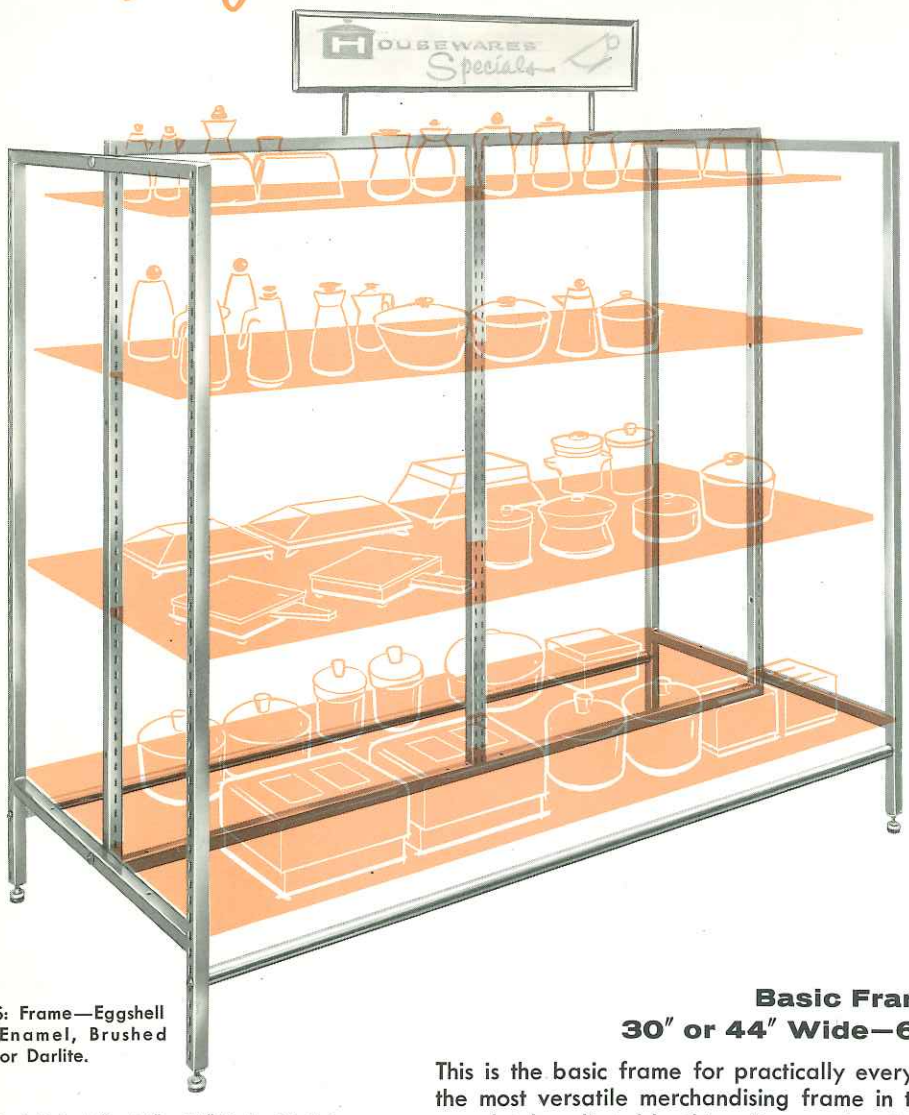
FROM THIS TO THIS IN MINUTES . . .



MAXIMUM FLEXIBILITY . . .

All Adjustasell units can be quickly changed to meet seasonal requirements or special merchandising needs.

Adjustasell ALL-PURPOSE FRAME ASSEMBLIES



FINISHES: Frame—Eggshell White Enamel, Brushed Chrome or Darlite.

AM-1 Basic Unit 44″ x 62″ x 54″ High with Slotted End Frames.

AM-2 Basic Unit 30″ x 62″ x 54″ High with Slotted End Frames.

AM-3 Basic Unit 44″ x 62″ x 54″ High with Plain End Frames.

AM-4 Basic Unit 30″ x 62″ x 54″ High with Plain End Frames.

Plain (unslotted) end frames are optional where end feature displays are not required.

Basic Frame Unit
30″ or 44″ Wide—62″ Long—54″ High

This is the basic frame for practically every type of hard or soft line merchandise—the most versatile merchandising frame in the fixture field today. Completely open, completely adjustable, this unit presents a large quantity of merchandise in a modern, functional design. Choice of shelving depends upon merchandise requirements.

48″ x 60″ center frame is slotted both sides at 1″ vertical intervals. Square end frames are available slotted on one side to permit end feature shelving for continuous 4-sided merchandising or plain where end feature shelving is not desired. Legs have adjustable levelers. Frames of 1″ square tubing. Two 60″ stretcher bars add stability to frame . . . support decks or counters.

Cardholder, brackets and shelves not included.

See pages 28, 29, 30, 31 and 35 for brackets, shelving, card holders and optional trim.

BASIC SINGLE SIDED FRAME ASSEMBLIES.
15½″ or 22½″ Wide—62″ Long—54″ High

Half frame or single sided gondola units can be used against walls, columns or as end features. Half units have the same features and finishes as full units. Choice of shelving depends upon merchandise requirements.

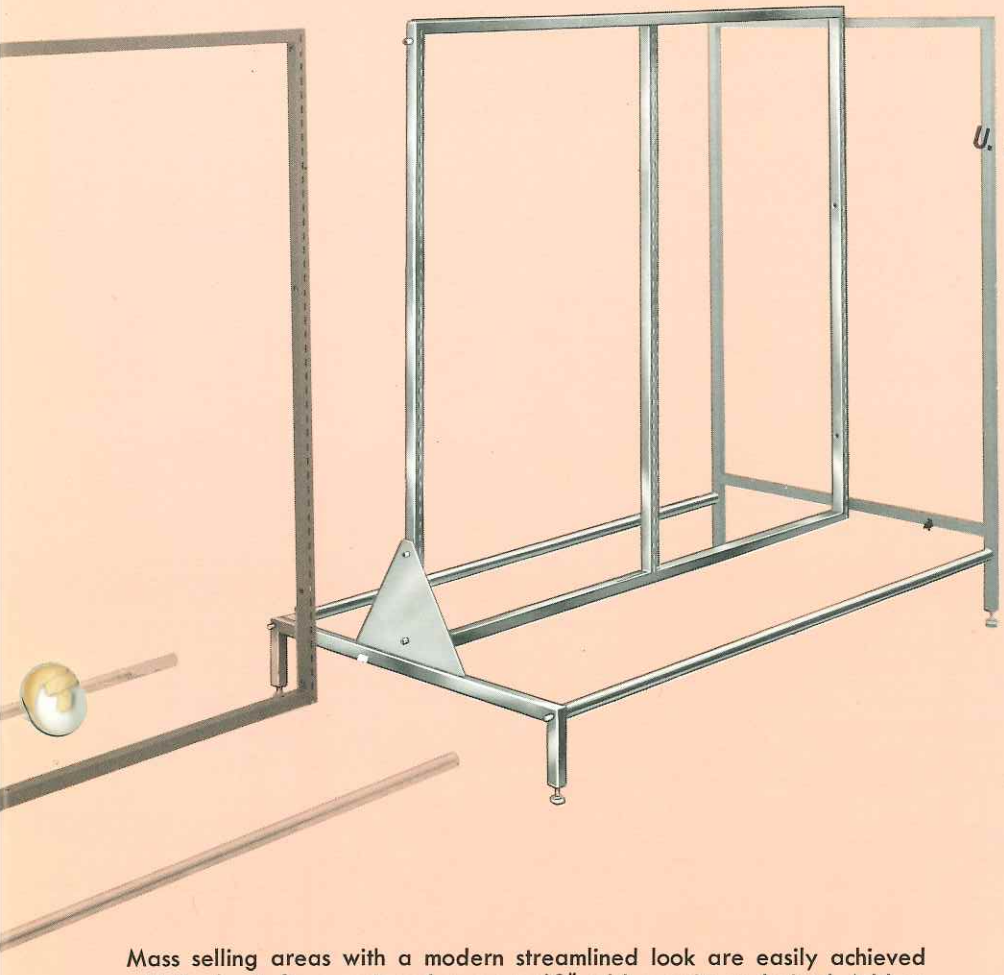
See Pages 28, 29, 30 and 31 for brackets and shelving.

AM-5 Basic half frame 22½″ x 62″ x 54″ high.

AM-6 Basic half frame 15½″ x 62″ x 54″ high.

ADD-ON UNITS FOR CONTINUOUS FIXTURING

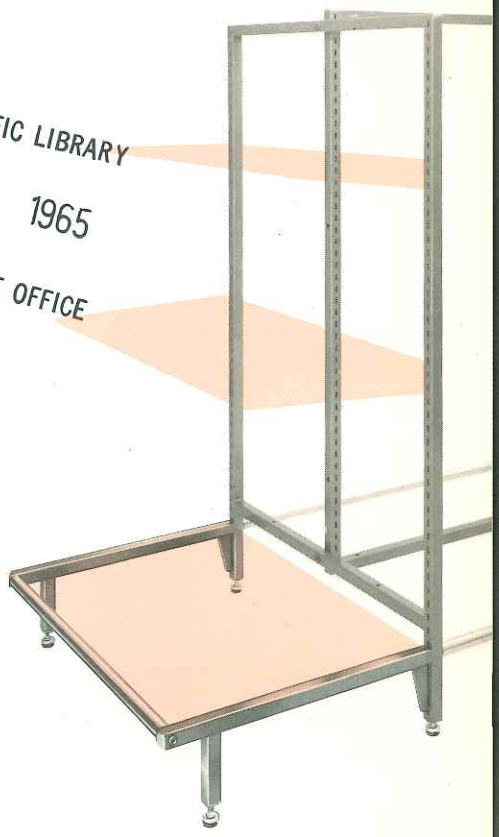
SCIENTIFIC LIBRARY
APR 9 1965
U. S. PATENT OFFICE



Mass selling areas with a modern streamlined look are easily achieved with the basic frame unit and as many 60″ add-on units as desired. Add-on units use intermediate end frames to reduce fixture cost on continuous runs.

AM-1A Add-on Unit for AM-1 and AM-3.

AM-2A Add-on Unit for AM-2 and AM-4.



End Feature Platform or Counter Support for Slotted End Frames

Platform frame is 7″ high with supporting legs—locks into end frames.

AM-1E1—44″ wide x 21½″ for 24″ end feature platform or counter.

AM-1E2—44″ Wide x 28½″ for 30″ end feature platform or counter.

AM-2E1—30″ Wide x 21½″ for 24″ end feature platform or counter.

AM-2E2—30″ Wide x 28½″ for 30″ end feature platform or counter.

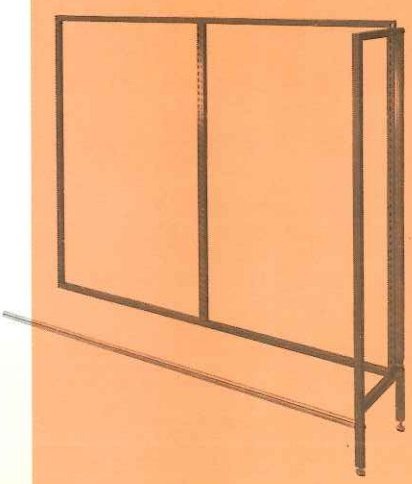
ADD-ON SINGLE SIDED FRAMES

AM-5A Add-on Unit for AM-5.

AM-6A Add-on Unit for AM-6.

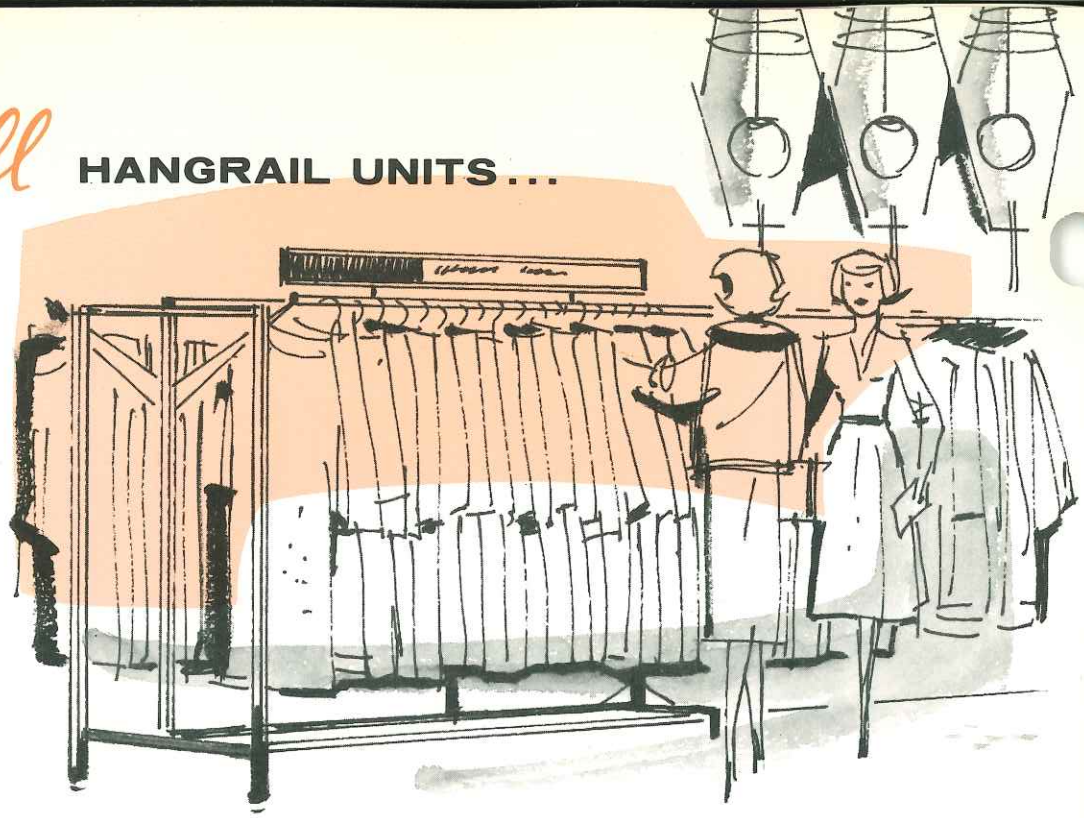
Add-on units may be used to make any desired length of tandem run of 5′0″ module.

See Page 35 for optional cardholders and accessories.



Adjustasell HANGRAIL UNITS...

Slim, trim merchandisers for all hangable garments. Use them singly or in tandem runs to any length in 5′ multiples. Adjustable hangrails on basic Adjustasell frames can be adapted to any merchandising need.



Departmentalized mass selling areas are easily achieved with economical add-on units for tandem runs.

END FEATURE
MANNEQUIN PLATFORM

SCIENTIFIC LIBRARY
APR 9 1965
U. S. PATENT OFFICE

BASIC HANGRAIL UNIT

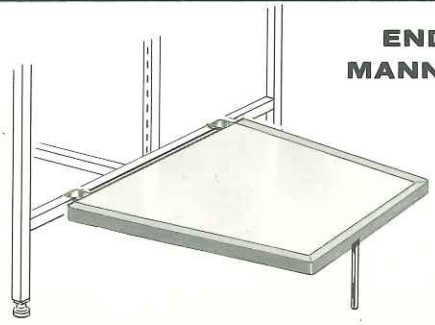
The basic unit consists of a standard Adjustasell frame 30" wide, 62" long, 54" high with two hangrail assemblies. Hangrails are adjustable from a maximum height of 66" down to any height desired. Chrome hangrails, balance of unit available in Darlite, Brushed Chrome or Eggshell-White enamel (specify).

AMG-1 With 1" Hangrail. **AMG-2** With 1¼" Hangrail.

ADD-ON UNIT

61" Add-on unit — same as basic unit less one end frame, can be added to make tandem runs to any length in 5' multiples.

AMG-1A With 1" Hangrail.
AMG-2A With 1¼" Hangrail.



END FEATURE MANNEQUIN PLATFORM

Identify departments and promote extra sales with life-like mannequin end feature displays. **AMP-1** Mannequin Platform attaches to lower cross bar of end frame. 18 x 20 x 24" plywood platform finished in white with natural wood banding. Metal parts, Chrome.

HANGRAIL ASSEMBLY

Hangrail package consists of two hangrail brackets, 60" hangrail and end caps. Can be purchased separately for double tier arrangements (as shown in sketches above).

AGP-1 With 1" Hangrail.
AGP-2 With 1¼" Hangrail.

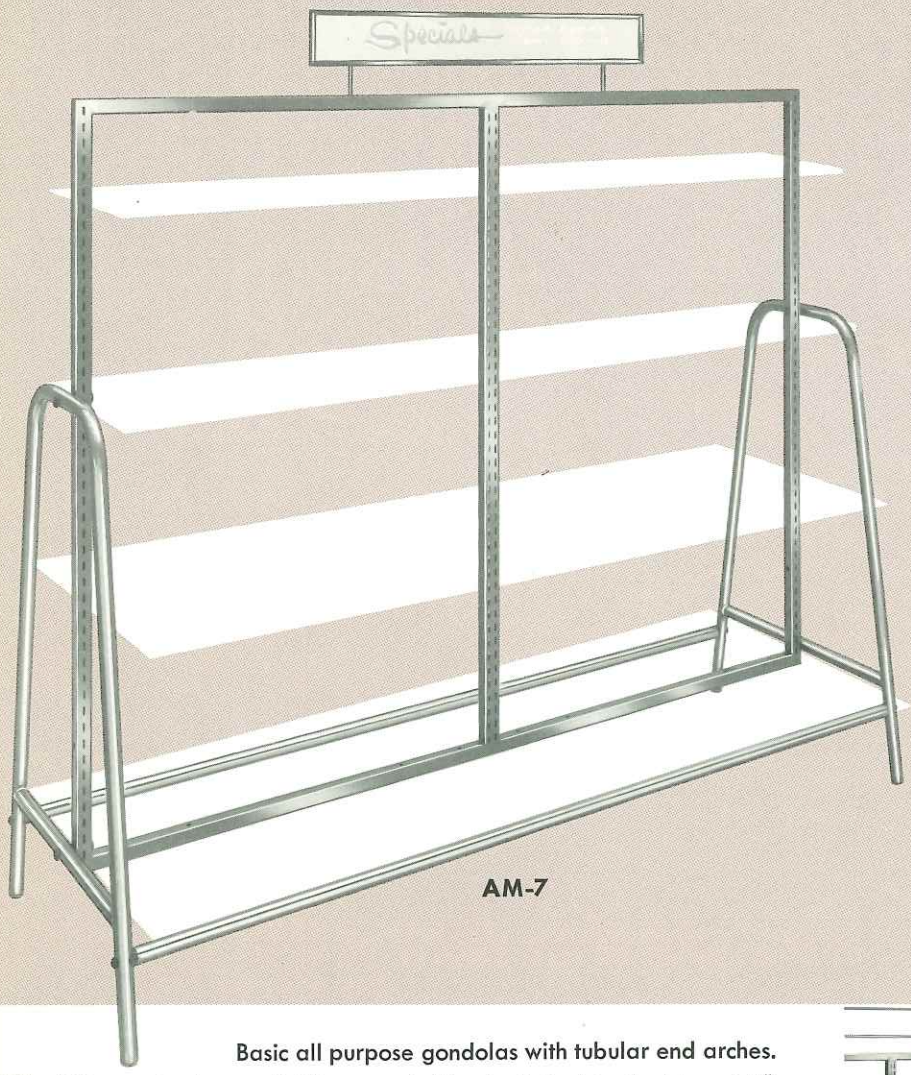
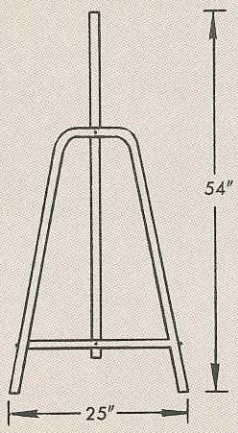
BASIC ECONOMY GONDOLA FRAME ASSEMBLIES



AM-7



BASIC GONDOLA WITH TUBULAR END ARCHES

25″ Wide—62″ Long—54″ High

Basic all purpose gondolas with tubular end arches. 48″ x 60″ center frame of 1″ square tubing is slotted both sides at 1″ vertical increments (double slotted in center upright) and drilled on top at four positions for cardholders and accessories.

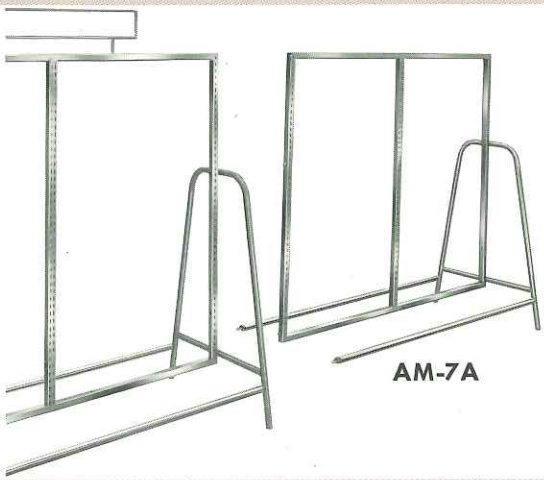
Tubular end arches are 25″ wide by 36″ high with metal glides. Two 60″ stretcher tubes give added stability and support to decks or base cabinets. Units may be used singly or in tandem. Takes all standard blade brackets and metal, wood or glass shelves.

FINISHES: Brushed Chrome, Darlite and Eggshell White Enamel.

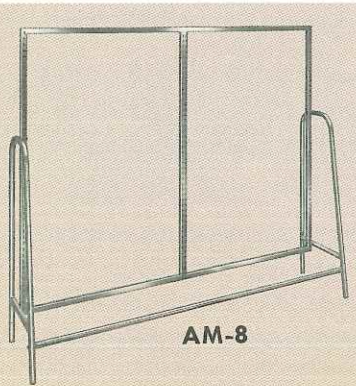
AM-7 Basic Gondola 25″ x 62″ x 54″.

AM-7A 61″ Add-on unit for AM-7. Build effective continuous runs to any length of 5′0″ module.

See Pages 28, 29, 30 and 31 for brackets and shelving.



AM-7A



AM-8

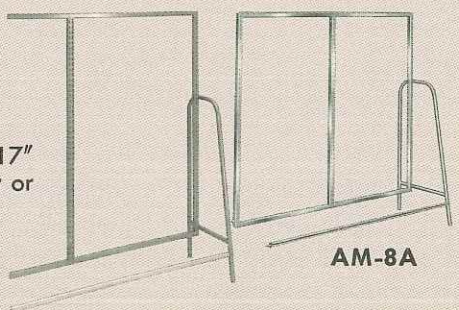
BASIC SINGLE SIDED GONDOLA
with tubular end arches

17″ Wide—62″ Long—54″ High

Same basic features and finishes of the full size unit in a 17″ wide half frame. Can be used against walls, as divider or breaker units and end features.

AM-8 Basic 17″ x 62″ x 54″ half frame.

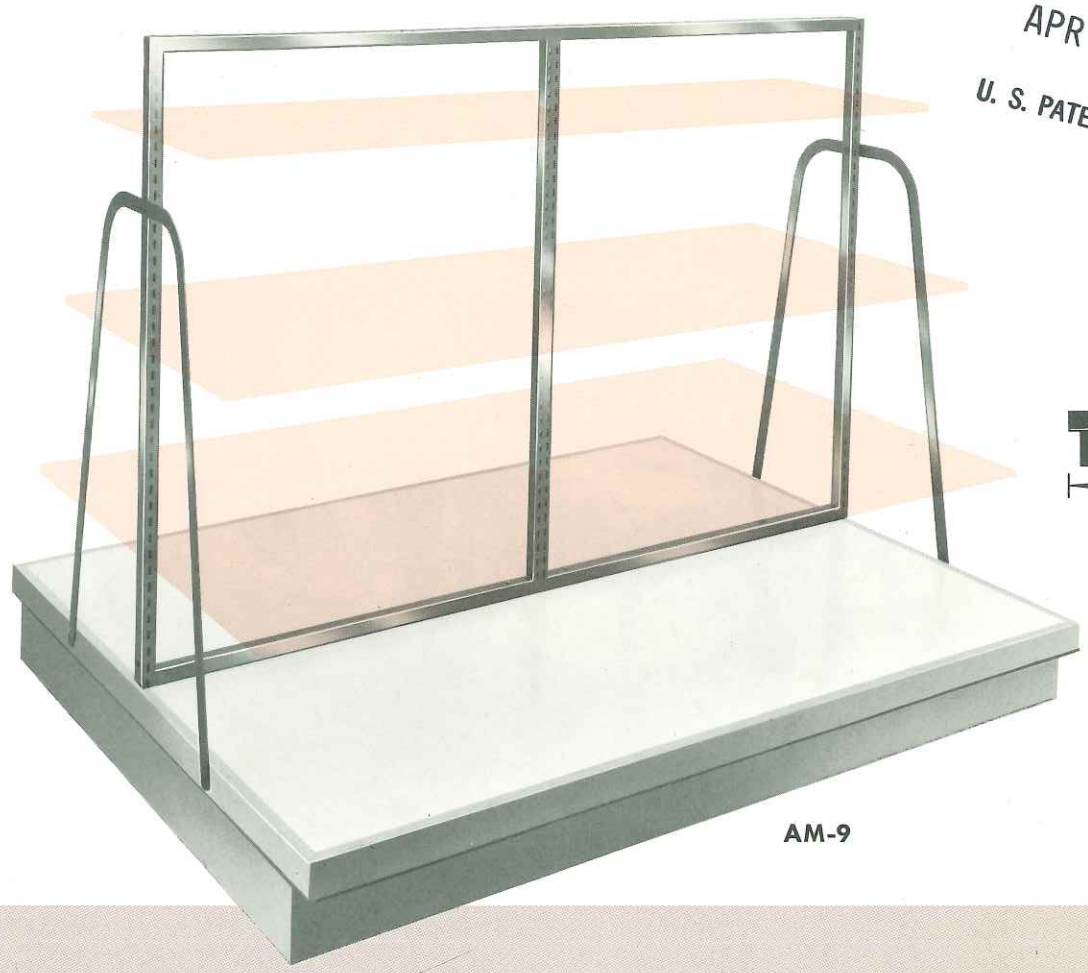
AM-8A 61″ Add-on Unit for AM-8.

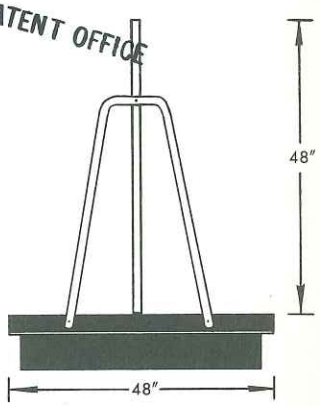


AM-8A

BASIC MERCHANDISER FRAME ASSEMBLY for 6″ high platforms.

SCIENTIFIC LIBRARY
APR 9 1965
U. S. PATENT OFFICE

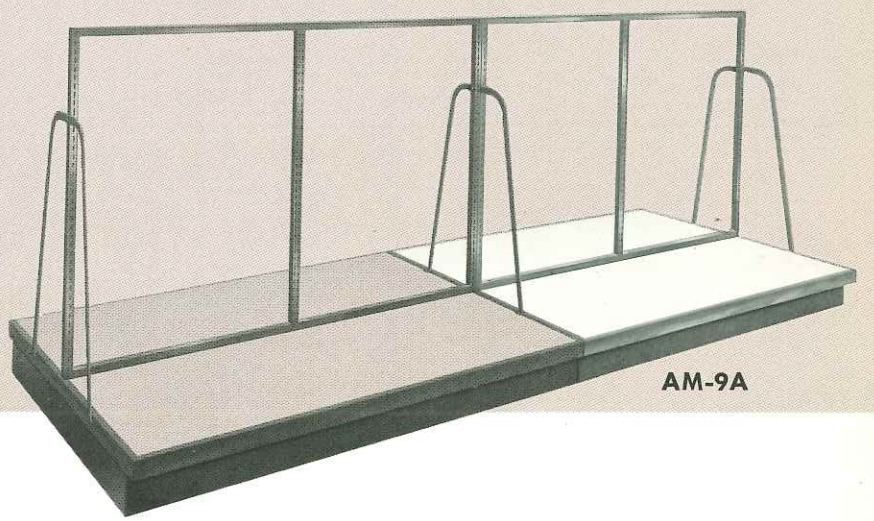




AM-9

BASIC MERCHANDISER FRAME ASSEMBLY for 6″ high platforms.

Center frame 48″ x 60″, of 1″ square tube is slotted both sides at 1″ vertical intervals (center upright double slotted) and drilled on top in four positions for cardholders and accessories. 48″ x 60″ x 6″ base platform is customer's selection—not supplied by L. A. Darling. Two flat end arches 23″ x 37″ mount at side of platform.



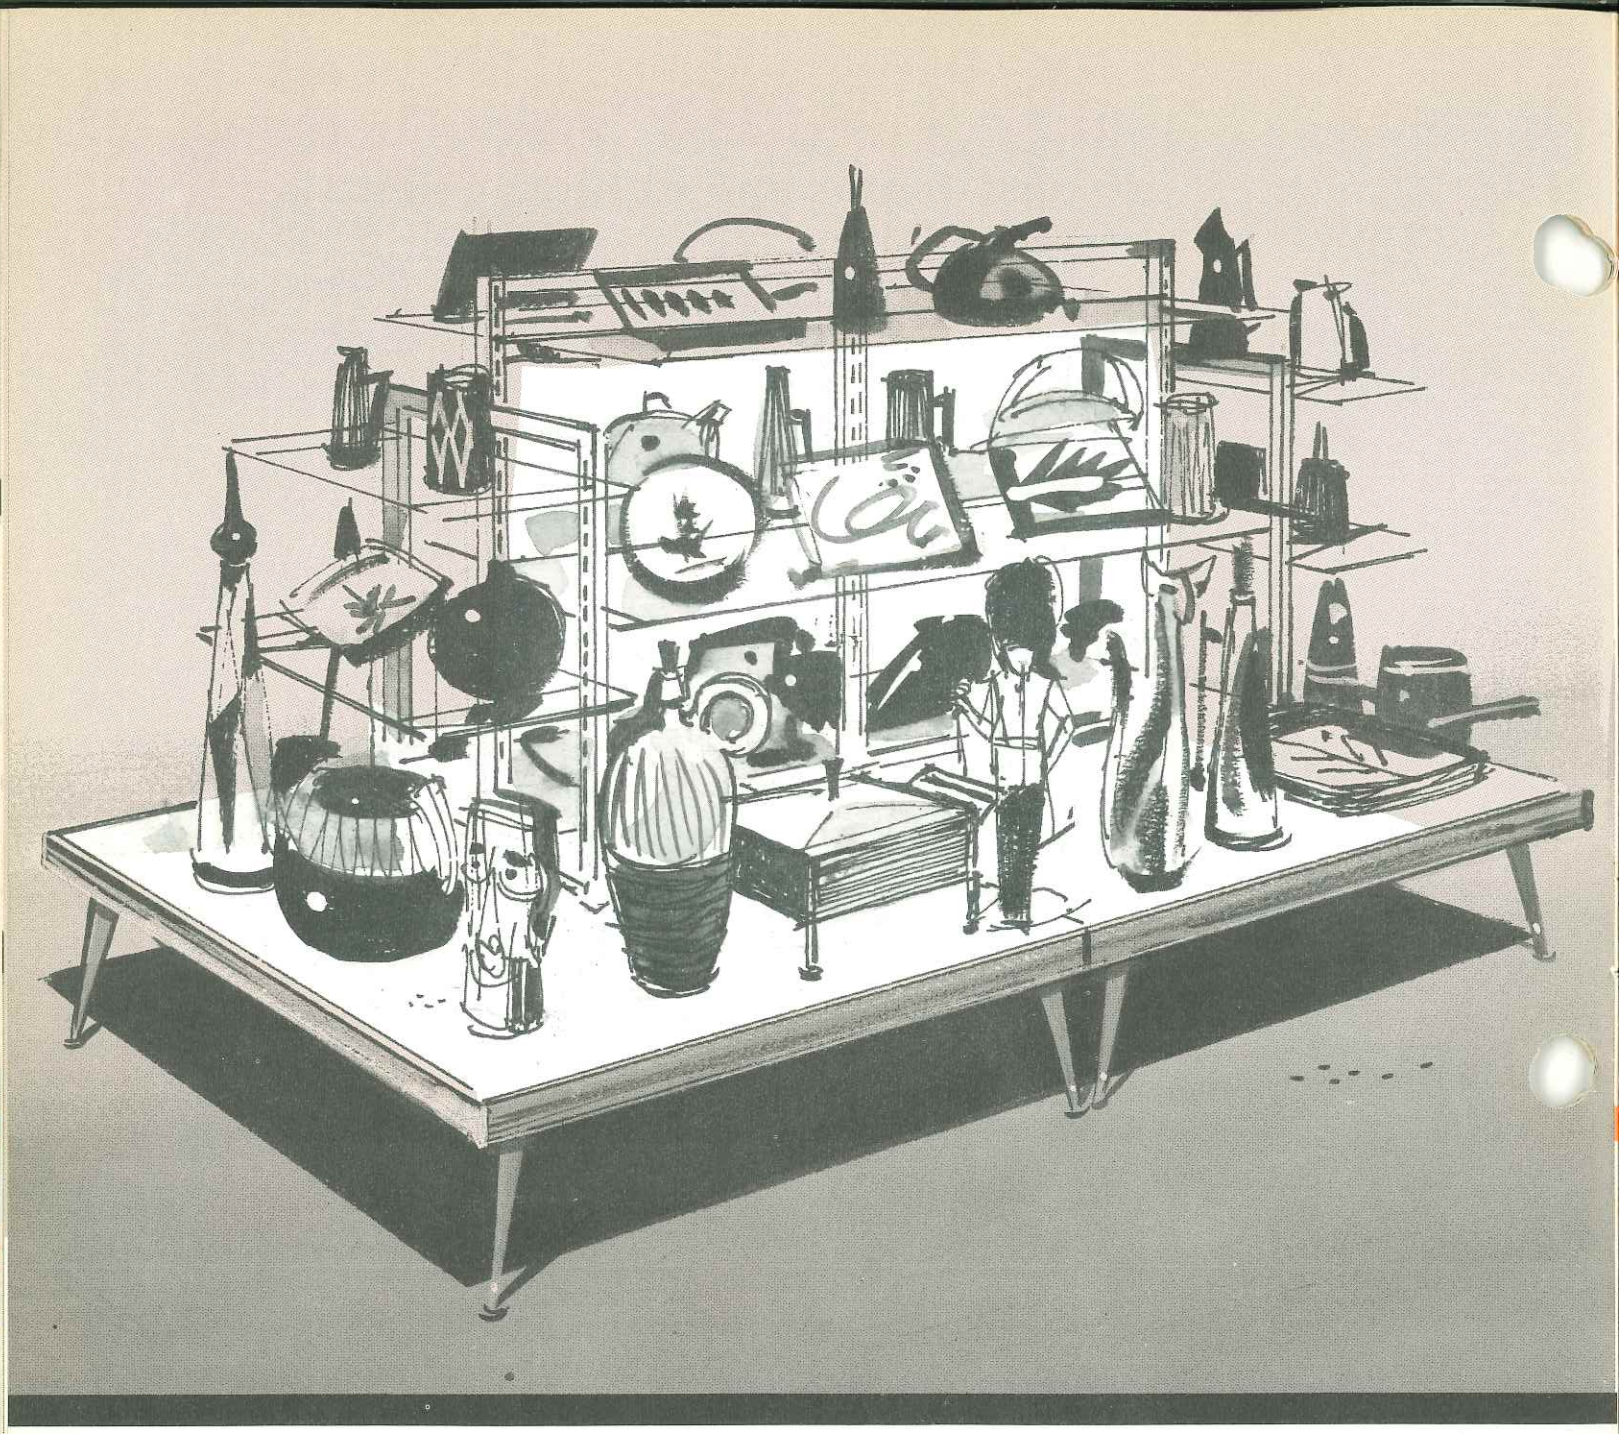
AM-9A

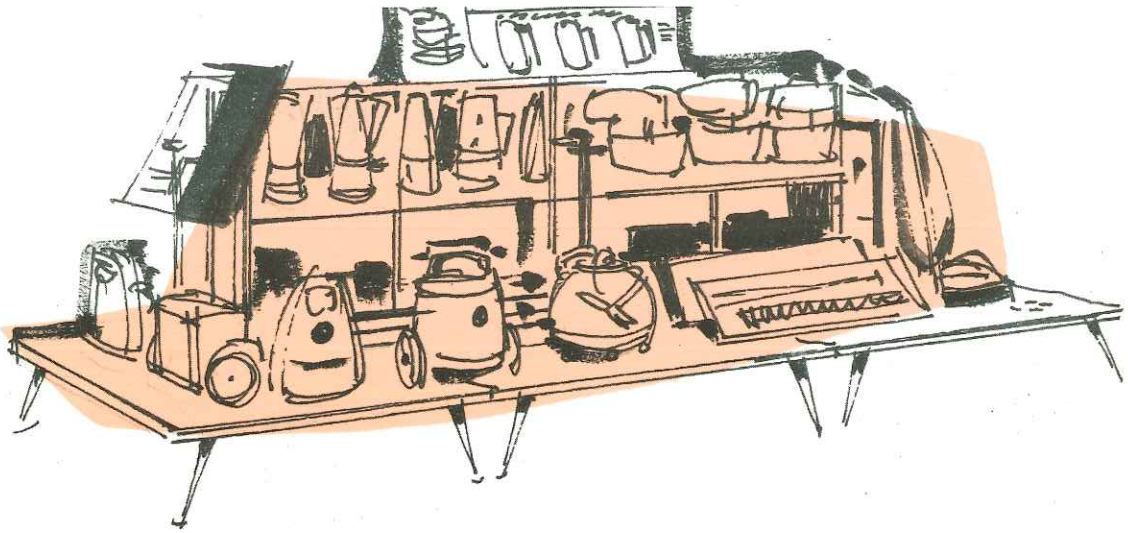
FINISHES: Brushed Chrome, Darlite or Eggshell White Enamel.

AM-9 23″ x 60″ x 48″ Basic frame for 6″ Platform.

AM-9A Add-on unit for AM-9. Center arch has flat flange support for top mounting to platform.

See Pages 28, 29, 30 and 31 for Brackets and Shelves—Page 35 for Cardholders and accessories.





SUPERSTRUCTURES AND DISPLAY TABLES.

LARGE WELL DESIGNED COMBINATION UNITS FOR USE WHERE STYLE SETS THE KEYNOTE FOR MODERN MERCHANDISING.

40" HIGH SUPERSTRUCTURES

Free standing units to fit on 14" high tables. New square style end sections have screw down insert to hold superstructure securely on table top. Made entirely of heavy gauge 1" square tubing. Center uprights slotted both sides, end frames slotted one side for end feature shelving (except AM-10 or -11, plain). Center frame drilled for cardholders and accessories. Over-all height when used on table is 54". In two lengths — 58" for 60" tables and 62" for tandem runs. Width 24" and 30".

Finishes: Brushed Chrome, Darlite and Eggshell White Enamel.

14" HIGH DISPLAY TABLES

48 x 60" and 60 x 60" wooden display tables are finished in White Enamel with Walnut trim. Four tubular tapered legs are in Brushed Chrome.

TABLE AND SUPERSTRUCTURE COMBINATIONS

AM10 (5'-0 Long) — Consists of:
1 — 24" wide, 58" long, 40" high Superstructure.
1 — 48" wide, 60" long, 14" high Display Table.

AM11 (5'-0 Long) — Consists of:
1 — 30" wide, 58" long, 40" high Superstructure.
1 — 60" wide, 60" long, 14" high Display Table.

AM12 (10'-0 Long) — Consists of:
1 — 24" wide, 62" long, 40" high Superstructure.
2 — 48" wide, 60" long, 14" high Display Tables.

AM13 (10'-0 Long) — Consists of:
1 — 30" wide, 62" long, 40" high Superstructure.
2 — 60" wide, 60" long, 14" high Display Tables.

AM14 (15'-0 Long) — Consists of:
2 — 24" wide, 62" long, 40" high Superstructures.
3 — 48" wide, 60" long, 14" high Display Tables.

AM15 (15'-0 Long) — Consists of:
2 — 30" wide, 62" long, 40" high Superstructures.
3 — 60" wide, 60" long, 14" high Display Tables.

Glass shelving and brackets not included.
Glass Size: 55⅞" long for 58" long Superstructure.
59⅞" long for 62" long Superstructure.

L. A. Darling metal shelving available for tandem units — See Page 31.

Adjustasell ALL-PURPOSE MERCHANDISER WITH CHOICE OF TWO PERF METAL SHELVING PACKAGES

62" Long – 33" or 37" wide – 54" High

Here is the one complete basic merchandiser for practically every type of hard or soft line merchandise. Completely open, completely adjustable with 1" vertical slots, this unit presents a large quantity of merchandise in a clean, functional display. Center frame is slotted both sides. Square end frames are slotted on one side to permit end feature shelving for continuous 4-sided merchandising.

Center frame is drilled for cardholders and display accessories. Frame accepts optional back and end panels for customized appearance. Unit equally adaptable for tandem runs. Complete units include all necessary components, including shelf brackets, perforated metal shelves and wooden deck.

Finishes: Frames — Eggshell White or Darlite.
Shelves — Eggshell White.
Wood Base Shelf — Eggshell White — Natural Wood Banding.
Brackets — Darlite.

MERCHANDISER No. AM16 (33" WIDE) CONSISTS OF:

- 1 – 48 x 60" Center frame, slotted both sides.
- 2 – 30 x 53" End Frames, slotted one side.
- 2 – 60" Stretcher Tubes
- 6 – 8" Brackets
- 6 – 10" Brackets
- 6 – 12" Brackets
- 2 – 10 x 60" Perf Metal Shelves
- 2 – 12 x 60" Perf Metal Shelves
- 2 – 14 x 60" Perf Metal Shelves
- 2 – 16 x 60" Wood Bottom Decks

MERCHANDISER No. AM17 (37" WIDE) CONSISTS OF:

- 1 – 48 x 60" Center Frame, Slotted both sides.
- 2 – 30 x 53" End Frames, Slotted one side.
- 2 – 60" Stretcher Tubes
- 6 – 10" Brackets
- 6 – 12" Brackets
- 6 – 14" Brackets
- 2 – 12 x 60" Perf Metal Shelves
- 2 – 14 x 60" Perf Metal Shelves

Adjustasell

BOLT GOODS MERCHANDISER

62" Long–36" Wide–54" High

The Adjustasell Bolt Goods Merchandiser is available with two variations for effectively showing either cotton or wool bolt goods. Fabrics are supported in upright position for better visibility and attractive drape display effect.
48 x 60" center frame is slotted both sides and drilled for cardholders or accessories. Choice of rectangular or A type end frame. Unit consists of 12 brackets — six 8" and six 18" and four cotton or wool bolt goods racks. Each cotton rack holds 16 bolts, each wool rack holds 8. Two bottom 18 x 60" wood storage decks are finished with eggshell white tops, natural finish banding. Frames in Eggshell White or Darlite. Brackets in Darlite and bolt goods racks in Chrome.

WOOL BOLT GOODS UNITS

Adjustasell SHOE or BOXED GOODS MERCHANDISERS .

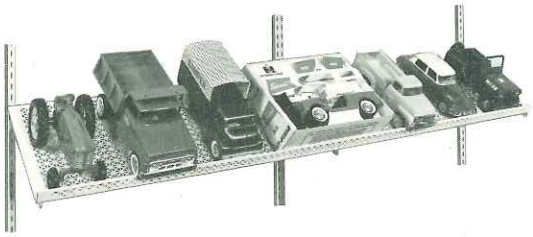
. . . attractive, compact units for effective mass merchandising.

AMS-2

Cardholder extra
see page 35.

Use singly or in tandem to show men's, women's or children's shoes in mass display for easy selection. Slant shelves show merchandise at ideal viewing angle. Units may also be used for display of boxed goods, toys, games, linens and paper goods.

62" Long—25" Wide—54" High



AMS-2 Ten shelf unit features narrow (25") tubular "A" frame end, particularly desirable where space is at a premium. Center frame is 48 x 60" with uprights slotted on both sides — top is pre-drilled for cardholders and display shelving. Unit has ten 12" open grille metal shelves with 1¼" retaining lip at front, supported by thirty — 12", 30° slant shelf brackets. Frames, Eggshell White or Darlite — Shelves, Eggshell White finish, Brackets — Darlite.

GFS-60 — Optional 60" heel rest fastens to metal shoe shelf.

SHOE–BOXED GOODS GONDOLA WITH BASIC SQUARE END FRAME

AMS-1

Basic Adjustasell gondola frame of the AMS-1 unit makes the perfect mass shoe or packaged items displayer yet gives the economy and esthetic advantage of uniform fixturing throughout the store.

62" Long—30" Wide—54" High

AMS-1 Unit consists of one 48 x 60" center frame slotted both sides and drilled on top for cardholders and accessories, two 53 x 30" end frames slotted one side for end feature build-up (Page 4), ten 12" open grille metal shelves with 1¼" front retainer lip, thirty 12"-30° slant shelf brackets. Frames Eggshell White or Darlite. Shelves in Eggshell White, brackets in Darlite. Toys, boxed goods, games, linens, paper goods, etc., are ideally displayed on open grille slant shelves.

Shelf clips hold shelf tight to slant brackets.

GFS-60 — Optional 60" heel rest fastens to metal shoe shelf.

27″ HIGH COUNTERS . . . CC35—Four 5′ x 5′ Counters complete with 7 uprights, 2 end feature frames, necessary brackets, 6-14 x 60″ shelves, 6-12 x 60″ shelves, 3-12 x 60″ top shelves, 2-12 x 48″ shelves.

CC535—Same set up with counters, uprights and end frames only—does not include brackets or shelves.

21″ HIGH COUNTERS . . . CC36—Four 5′ x 5′ Counters complete with 7 uprights, 2 end feature frames, necessary brackets and upright caps, 12-14 x 60″ Shelves, 6-12 x 60″ Shelves, 2-12 x 48″ shelves.

CC536—Same set up with counters, uprights and end frames only—does not include brackets or shelves.

OPTIONAL KICKPLATE ASSEMBLIES

for 5′ x 5′ Counter combinations:

CK12—Kickplates for 10′ Counter run.

CK13—Kickplates for 15′ Counter run.

CK14—Kickplates for 20′ Counter run.

Black Baked Enamel Finish

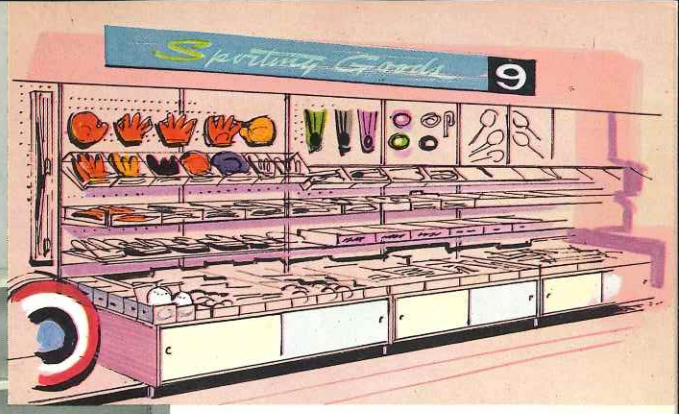
EXTRA BRACKETS AND SHELVES

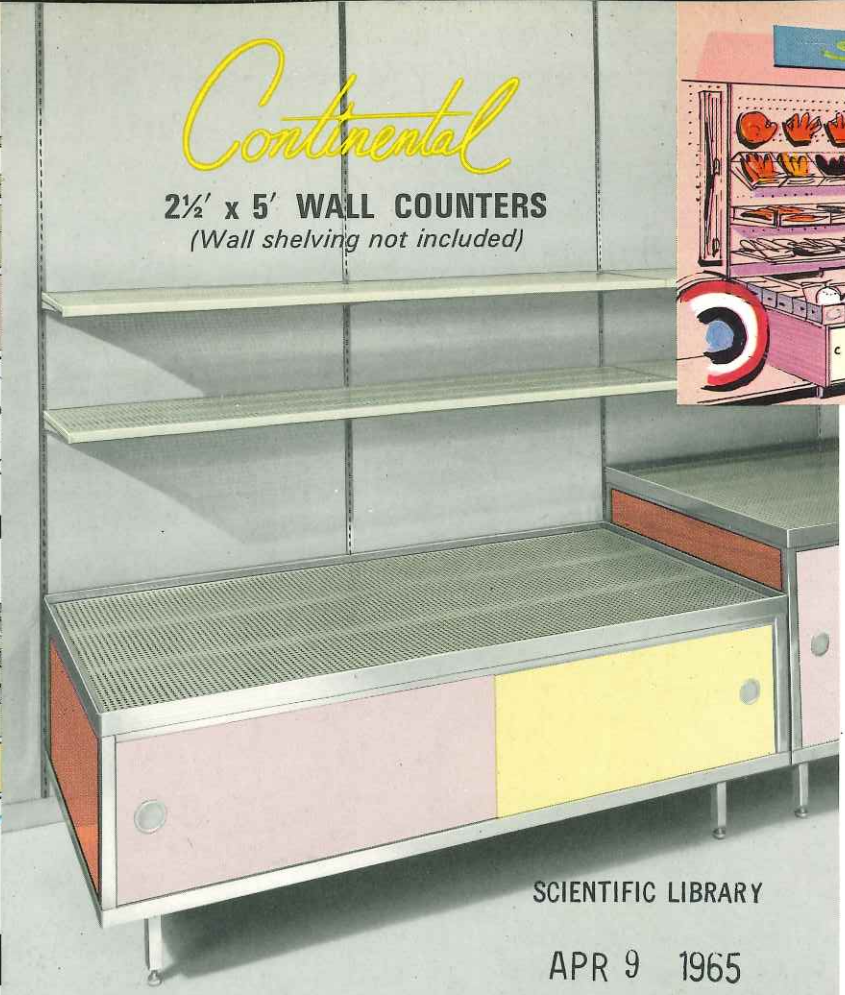
See Pages 28 and 31 for brackets and shelves for different over counter build-ups.

Continental

2½′ x 5′ WALL COUNTERS

(Wall shelving not included)





SCIENTIFIC LIBRARY
APR 9 1965
U. S. PATENT OFFICE

Rugged, chrome-frame Continental Wall Counters slide easily into place against any fixed or movable wall. Same quality features as the 5′ x 5′ Counters and available in both 27″ and 21″ heights. Use with standard wall shelving to give your display area that "finished" look. Use as a single counter to "fill-in" where space limitations present a merchandising problem.

See pages 28 thru 31 for wall brackets and shelves.

CW227—27″ counter.
CW221—21″ counter.

KICKPLATE ASSEMBLIES FOR WALL UNIT COMBINATIONS—OPTIONAL

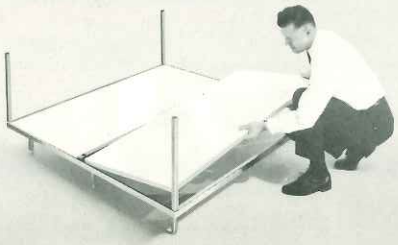
1 counter (5′) **CK16**
2 counters (10′) **CK17**
3 counters (15′) **CK18**
4 counters (20′) **CK19**
5 counters (25′) **CK20**

Black Baked Enamel Finish

7 STEPS TO EASY ASSEMBLY

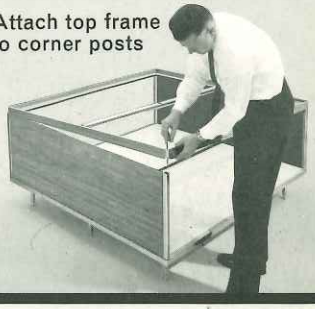
1. Fasten corner posts to base frame

2. Slide in bottom deck



3. Slip in end panels

4. Attach top frame to corner posts



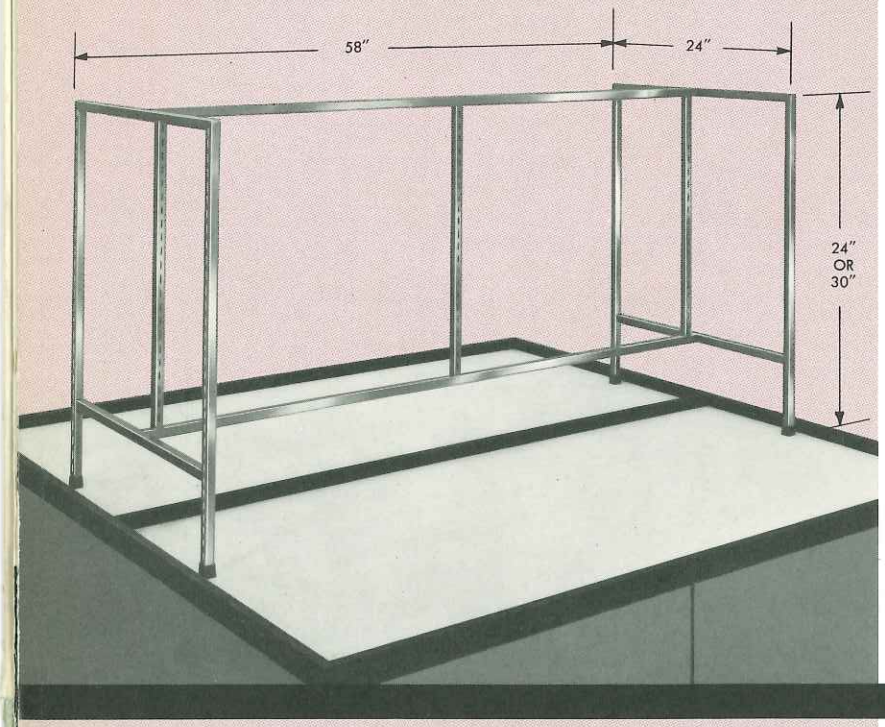
5. Insert counter top

6. Slip in sliding doors

7. Place uprights into slots

ADJUSTASELL SUPERSTRUCTURES...

for overcounter displays



SUPERSTRUCTURE for 5′ Counters 58″ Long – 24″ Wide – in Two Heights

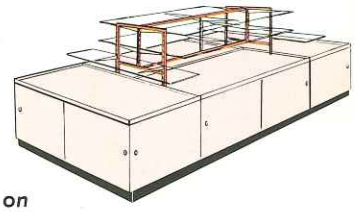
Free standing frames in 24″ or 30″ heights permit correct eye level fixturing on 21″ or 27″ counters. Slim-line ¾″ square tubing, slotted on both sides of center frame and on outside face of end frames. Furnished with rubber "feet".

Finishes: Brushed Chrome, Darlite and Eggshell White Enamel.

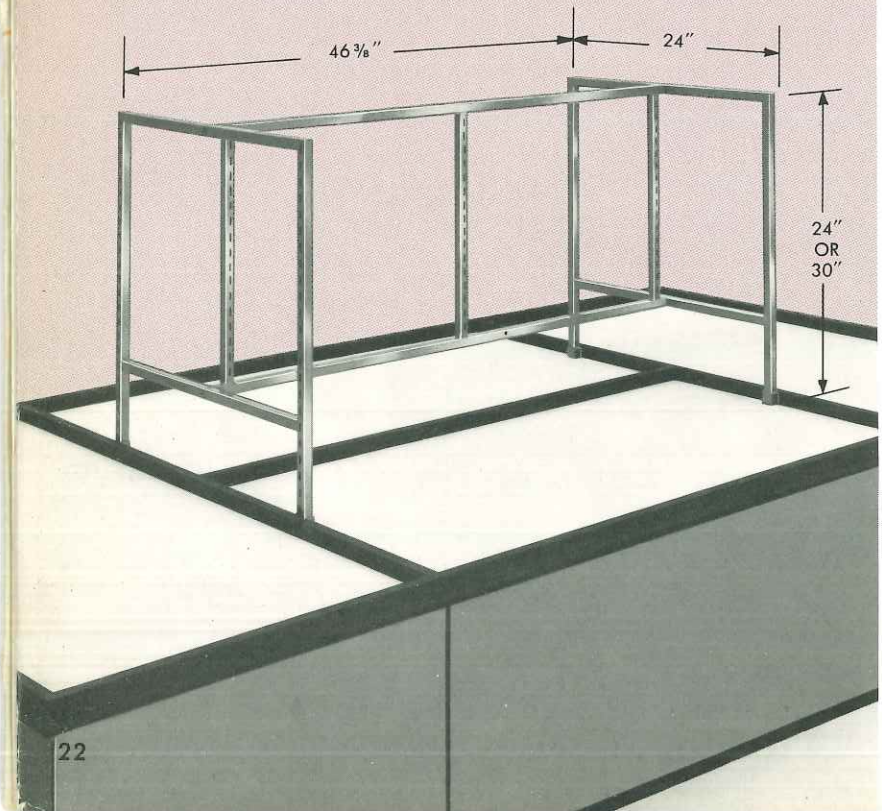
ACF-1 — 24″ High.

ACF-2 — 30″ High.

58″ Long—Free standing unit on 5′ Counter.



End Feature build-up on 46⅜″ Unit. Over 4′ Counters.



SUPERSTRUCTURE for 4′ Counters: 46⅜″ Long – 24″ Wide – in Two Heights

Complete unit is self-supporting. ¾″ square tubing slotted both sides of center frame and on outside face of end frames for easy end-feature build-ups. Furnished with rubber "feet".

Finishes: Brushed Chrome, Darlite and Eggshell White Enamel.

ACF-3 — 24″ High

ACF-4 — 30″ High

See Pages 28, 29 & 30 for Brackets.

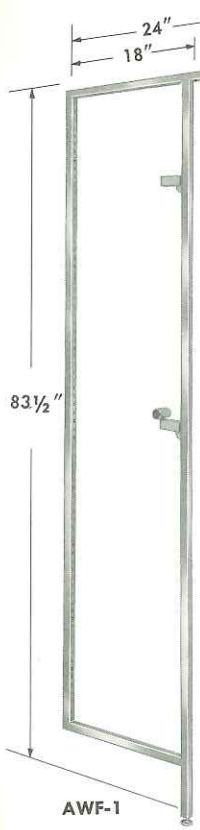
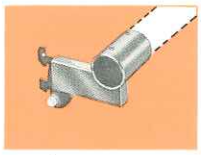
WALL FRAME ARCHES . . .

. . . ideal for Perimeter display and merchandising

Versatile frames of 1" square metal tubing are slotted to take shelving or hangrails in a variety of interchangeable set-ups.



AG-9 Hangrail retainer 2⅝" long for 1" or 1¼" slotted rail. Eggshell White.



AG-10 2⅝" Hangrail bracket has sleeve for 1" rail. Eggshell White.
AG-11 Same as AG10 with sleeve for 1¼" hangrail.

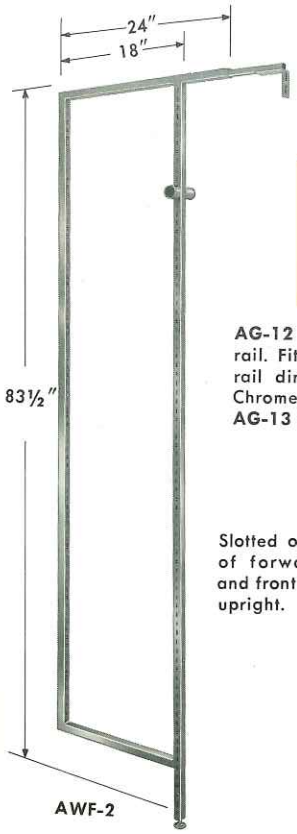
Slots inside forward upright and on front edge of rear upright.

SCIENTIFIC LIBRARY
APR 9 1965
U. S. PATENT OFFICE

7' HIGH WALL FRAME ARCH–24" WIDE

AWF-1 Graceful modern frames for distinctive giftware, lamps, china and fashion departments. Especially suitable on pre-finished wall areas. Forward upright slotted on back side only. Includes 18" cornice bracket. In Eggshell White finish.

See Next Page for Hangrails



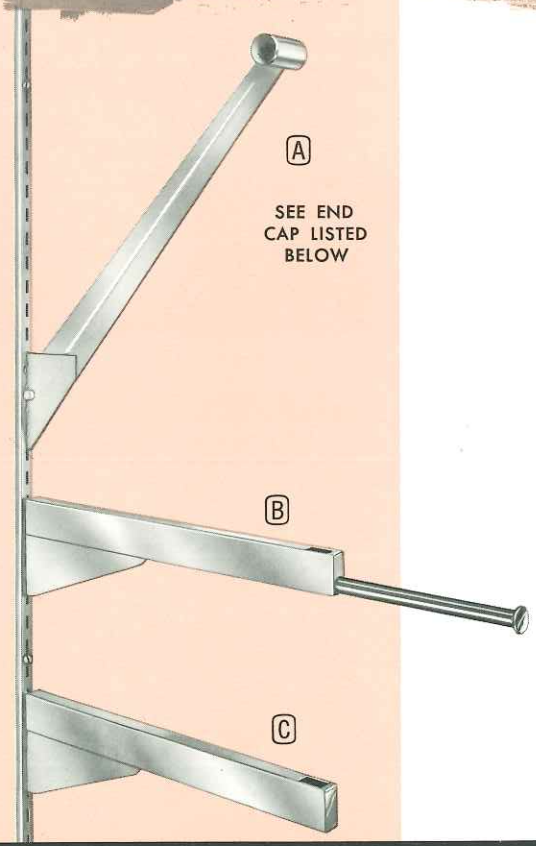
AG-12 Hangrail bracket for 1" rail. Fits side of upright to hold rail directly between frames. Chrome
AG-13 Same for 1¼" hangrail.

Slotted on both sides of forward upright and front edge of rear upright.

7' HIGH WALL FRAME ARCH–24" WIDE

AWF-2 Foward upright slotted both sides. Holds hangrail section directly between frames on pair of AG12 or 13 brackets. Includes 18" cornice bracket. In Eggshell White finish.

Recommended especially for use with overcoats and heavy garments.



SEE END CAP LISTED BELOW

HANGRAIL EQUIPMENT...

Hangrail Brackets

Ⓐ **AG-1** 47° Slant blade-type bracket for 1″ hangrail. For unit or tandem use. 19½″ long —extends 12¾″ from wall. Brushed Chrome, Darlite or Eggshell White finish.

AG-2 47° Slant blade type bracket for 1¼″ hangrail. For unit or tandem use. 19½″ long —extends 12¾″ from wall. Brushed Chrome, Darlite or Eggshell White finish.

Ⓑ **AG-3** 14″ Rectangular-shaped hangrail bracket accepts or joins 1″ or 1¼″ slotted hangrails with Chrome pull-out rod. Brushed Chrome, Darlite or Eggshell White finish.

Ⓒ **AG-4** Same as AG-3 without Chrome pull-out rod.

HANGRAILS AND END CAPS

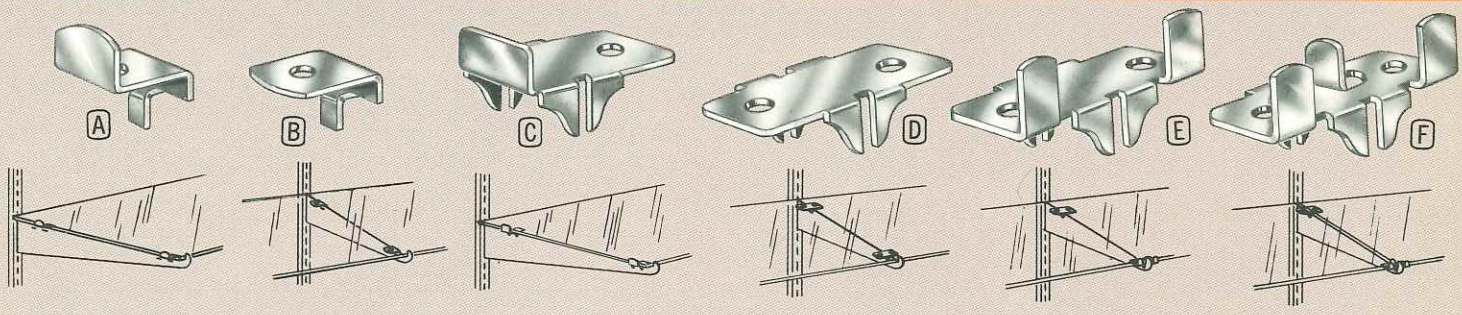
BRACKET CLIPS FOR GLASS OR WOOD SHELVING



A ABC1 End Clip — Clips into slots in bracket at front or rear. Turned up end holds shelf securely. Use for rights or lefts. Rubber rests for glass shelves optional. Darlite finish.

B ABC2 Center Clip — Clips into slots in bracket at front or rear. Use for continuous runs or four per bracket (two right and two left) for splicing shelves at bracket. Darlite.

C ABC3 End Clip (slip over type) — Notches in clip return slip over bracket. Use for rights or lefts at front or rear. Turned up end holds shelves securely. Darlite finish.

D ABC4 Center Clip (slip over type). — Use at front or rear for continuous runs or for splicing shelves at bracket. Darlite finish.

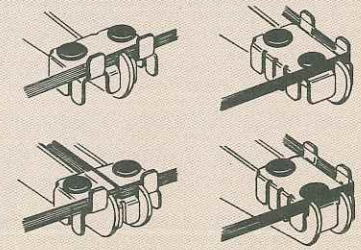
E ABC5 Front Center Clip (slip over type) — Use at front of bracket only for continuous runs. Upturned prongs hold shelf securely. Darlite finish.

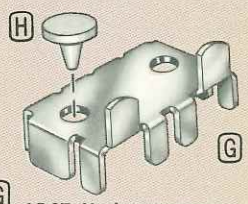
F ABC6 Front Splicer Clip (slip over type) — Use for splicing glass shelves at bracket. Upturned prongs at front and center hold shelves securely. Darlite finish.

VX2 Rubber Rests for glass shelves. (priced extra).

H

MULTI-PURPOSE CLIP



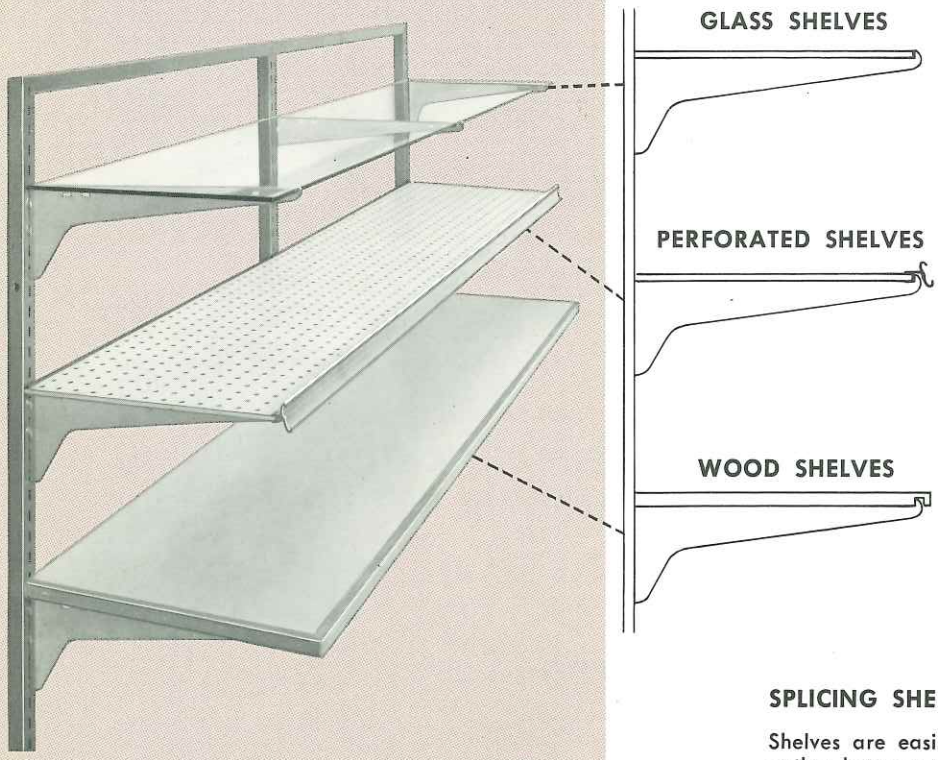


G ABC7 Multi-purpose Clip — Fits either single or double blade brackets and can be used as a front center clip on continuous runs, for splicing glass shelves at bracket, or as end clips on front or rear either right or left. Darlite finish.

New Angle Formed Tension Brackets . . .

unique principle holds shelving secure without clips or screws

These new angle formed tension brackets permit shelf installation, removal or repositioning in minutes. The bracket locks the shelf firmly in place with no other fastening required. Same bracket used for glass, perf. hardboard and wood.

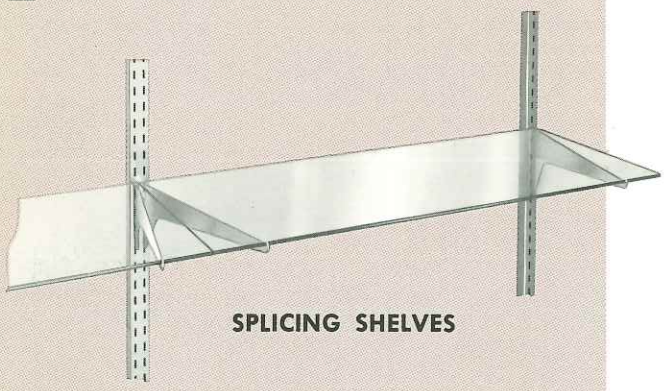


Glass shelves are secured by springing brackets out so front lip forms tension on edge of shelf when released.

Perforated shelves are locked in place by inserting the tip of the bracket into a groove provided under the price ticket strip. (See listing of shelves below).

Wooden shelves are normally secured the same as glass shelves, however bracket tips can be concealed by making shelf a little wider than usual and routing a 1/4" groove in the underside to accept bracket tip. Wooden shelves not furnished by L. A. Darling.

NOTE: Standard straight brackets can be used as center support on 60" shelf as shown. Order same size as shelf width.



SPLICING SHELVES

SPLICING SHELVES

Shelves are easily and automatically spliced by simply butting together between two tension brackets as shown in sketch. No other fastening is required.

PERFORATED SHELF UNITS

The perforated shelves are designed for use with tension brackets only. Shelves are made from 1/4" tempered, perforated hardboard. The shelf finish is an extremely wear resistant, baked enamel in an attractive, neutral Eggshell White. The anodized aluminum price ticket moulding holds both 7/8" and 1 1/4" price tickets. The back shelf edge is neatly trimmed with a metal moulding that gives additional reinforcement.

WIDTH	60" LONG	48" LONG	36" LONG	30" LONG

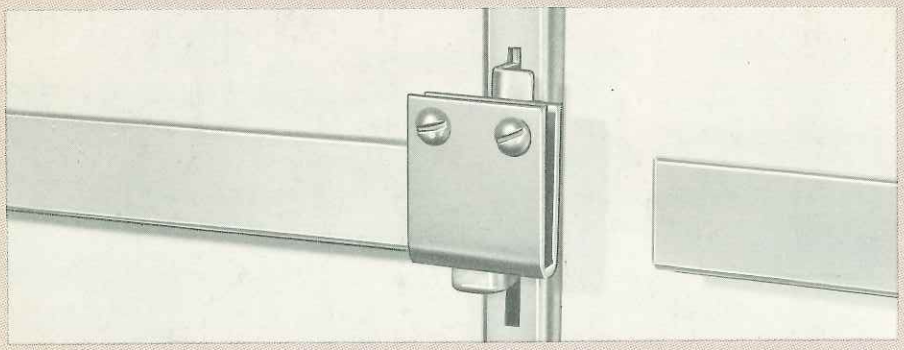
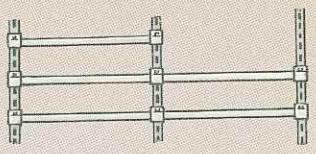
SNAP-ON BARS and ATTACHMENTS...

fasten quickly and securely to Adjustasell Uprights



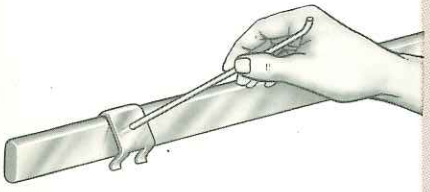
ABR BAR CLIP. Fastens securely in slotted upright to accommodate snap-on bars. Darlite.

VB1 Snap-on Bar for Attachments. 3/16" x 1" x 29 7/8". Chrome.

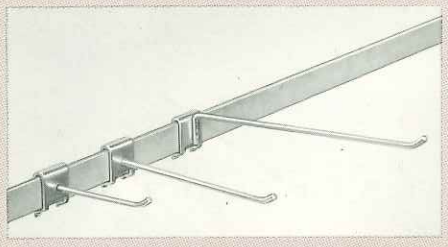


HOW TO ORDER

Bar clips are priced separately for convenience in ordering multiple sections . . . For Single Section Order — 1 Bar with 2 clips. For Two Sections Order — 2 Bars with 3 clips.

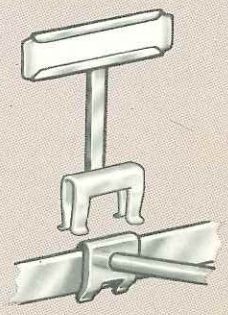


Attachments are quickly and easily fastened or removed from snap-on bars.



SNAP-ON UTILITY HOOKS . . . of 3/16" diameter rod. Ideal for display of kitchenware, brushes, button cards.

VBA74 — 4" long — Darlite.
VBA75 — 6" long — Darlite.
VBA76 — 9" long — Darlite.



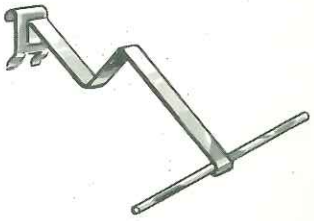
VBA50 TICKET HOLDER. Fits over snap-on bar. Darlite.

UTILITY HOOK in 3 sizes — Darlite.
VBA-1 — 4" long
VBA-2 — 6" long
VBA-3 — 9" long

VBA86 BELT HOOK. 1/4" rod, 3" long, Darlite.

T24A SPONGE RUBBER CAP.

VBA9 HAT BRACKET. Darlite.

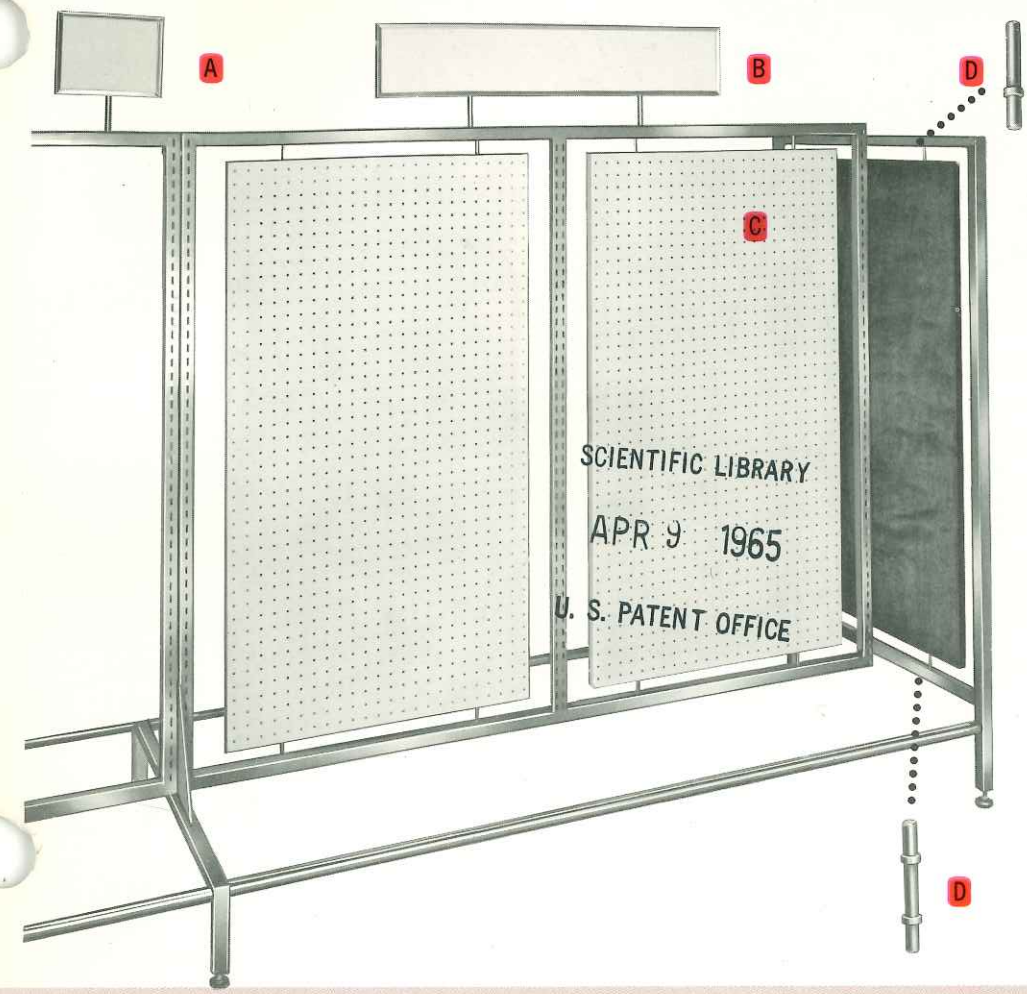


VBA22 MEN'S HAT BRACKET. Darlite. Minimum Package of 12.

DOUBLE UTILITY HOOK in 3 Sizes
VBA26 — 6" long — Darlite.

Adjustasell ACCESSORIES...

add the finishing touch to Adjustasell Units



THREADED STEM CARDHOLDERS...

- Mitered Picture-Like Frames
- Rich Brushed Chrome Finish
- Distinctive Modern Styling

A CP16-9 — 5½ x 7″ Horizontal.
CP8-9 — 7 x 11″ Horizontal.
CP8-9V — 11 x 7″ Vertical.

B CP-31 — 4½ x 22″ Two stem.

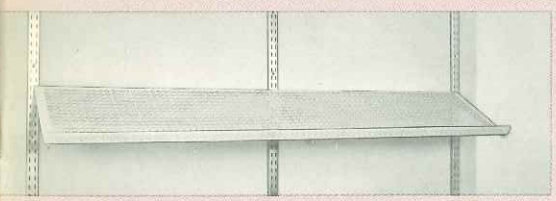
PERF BACK PANELS

C BPA-1 Gondola Back Panel 1″ x 23⅞″ x 43½″ of ¼″ perforated masonite both sides. Painted White. Includes two top and two bottom retaining pins.

PANEL RETAINER PINS

D EPA-1 Set of two top and two bottom retainer pins. Top pins are ¼″ diameter by 2 1/16″ long. Bottom pins are ¼″ x 2½″. Darlite Finish. End Panel not included.

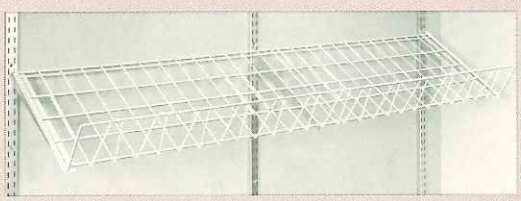
SHELVING.



SHOE — OR BOXED GOODS SHELF

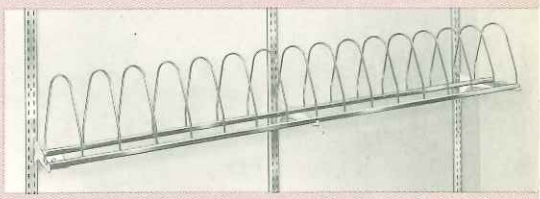
For wall or floor units
MSA-1 — 12″ x 59⅞″ decorative stamped metal shelf fits any blade bracket — can be used level or slant for effective display of shoes, toys, games or packaged items. 1¼″ upturned shelf front retains merchandise displayed on slant shelves. Bracket clips on each end hold shelf securely. Eggshell White Finish.

GFS-60 — Optional 60″ Footwear Stop for heel rest when shelf is used for shoes.



PILLOW-SHIRT SHELF

MSA-2 — 14 x 59⅞″ wire shelf with 5″ retainer front. Can be used on level or slant shelves. For wall or floor units. Eggshell White.



BOLT GOODS RACKS

Cotton or Wool bolt goods rack has clips on ends which hold rack tight to any blade bracket. For use on wall or floor units. Chrome finish.

AUA-35 — Cotton Rack. Holds 16 cotton bolts. 3¾″ between holders.

AUA-34 — Wool Rack. Holds eight bolts 7¼″ between holders.
